Keep your vehicles ready and streamline your operations with IVECO Services.

IVECO Services to streamline electric operations
Tailored services managing energy, charging and uptime across your electric mission.

100% Full Electric,
100% Full Load
IVECO
SUPER
eJOLLY

eSUPERJOLLY is your ideal business ally for navigating urban environments – even in restricted traffic zones

Powered by a high-capacity 110 kWh battery, it offers an impressive range of up to 420 km* (WLTP), giving you the confidence to manage your daily operations without compromises. Whether it's last-mile deliveries, logistics, or city-based work, the eSuperJolly keeps you productive, compliant, and moving quietly with zero-emission electric performance.

Powerful, adaptable, and cost-effective

With three traction modes – Eco, Normal, and Power – you control how the vehicle responds. Choose Power for maximum responsiveness, Normal for a smooth and balanced ride, or Eco for a more efficient and sustainable drive with lower energy consumption. While on the road, the regenerative braking system boosts efficiency by converting kinetic energy into electric power every time you lift your foot off the accelerator. Four regeneration levels – High, Medium, Low, and Freewheeling – let you tailor deceleration to your preference, from maximum energy recovery to effortless coasting.

* WLTP range based on simulations using homologation parameters. Actual range may vary depending on driving style, weather conditions, and other external factors.

When comfort is part of your work

Turn every journey into a productive workspace with eSUPERJOLLY – your office on wheels

Designed for professionals on the move, it offers a spacious, ergonomic cabin with the comfort and functionality you need to perform at your best.

Adjustable headrests, backrests, and lumbar support on the front seats keep you comfortable and focused throughout the day. And when it's time to switch from driving to working, the optional folding centre seat transforms into an adjustable table (FLEX TABLE) – perfect for your laptop, documents, or mobile devices.

Smart storage solutions – from glove compartment and lower drawers to cup holders and large door pockets – keep everything organized and within reach.

With eSuperJolly, your business moves with you.

IVECO

Smart, connected cabin, built for your workday

The eSuperJolly keeps you in control with advanced infotainment and connectivity features designed to support your business on the move.
Choose the setup that fits your style:

- The standard 7" touchscreen DAB radio with one or two* USB ports for essential functionality.
- Or upgrade to the 10" full-color touchscreen with DAB, MP3 player and 3 USB ports.

Clearer, safer driving

The RearView Camera provides a wide, unobstructed, and ultra-clear view of the area behind the vehicle, making reversing and parking safer and easier. Together with 360° parking sensors*, it puts you in complete control of the space around the vehicle.

Navigation and Smart Routing

On the 10" touchscreen, the TomTom 3D map guides your way, while Apple CarPlay™ and Android Auto™ seamlessly integrate your smartphone. With IVECO's Smart Routing service**, you will always know the most efficient path – and never worry about range again.

Stay focused, stay connected

Use voice commands with the Vocal Assistant** to keep your hands on the wheel and your eyes on the road. Moreover, with wireless Apple CarPlay™ and Android Auto™, available on both screen options, you can navigate, call, message, and stream music from the vehicle's display.

* Optional.
** Available on 10" touchscreen. Requires an active connectivity contract.

Experience seamless comfort and intelligent control with eSUPERJOLLY

With the Keyless Entry & Go system, you can unlock the cabin and cargo area, and start or stop the vehicle – all without ever reaching for your key. Simply approach the vehicle, and you're ready to drive.

The Electronic Parking Brake (EPB) replaces the traditional handbrake lever with a sleek, intuitive button to securely engage the rear brakes, freeing valuable space in the cabin.

Capacity, autonomy, sustainability

eSUPERJOLLY delivers

Best-in-class payload-to-battery range ratio

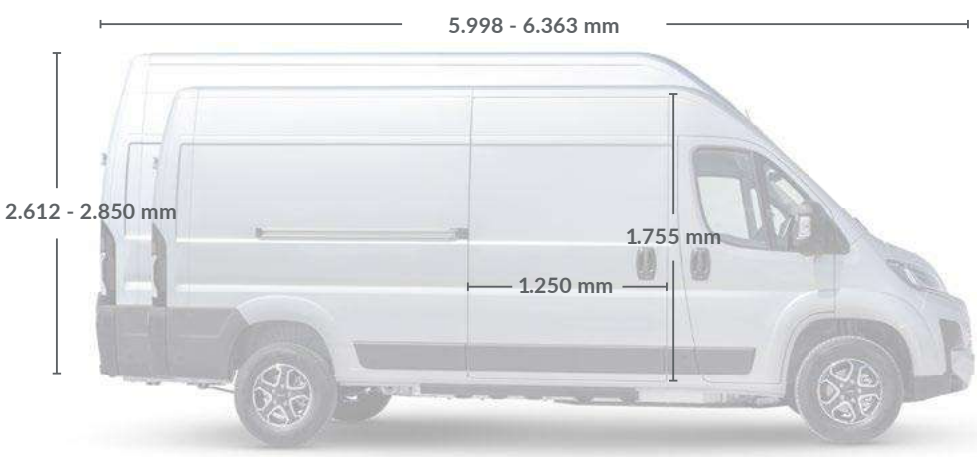

The eSUPERJOLLY is the optimal solution for urban delivery operations

With a robust 110 kWh battery and best-in-class payload capability up to 1,4 tonnes on 4,25-tonne version, it is designed for professionals who require extended range and high energy capacity.
Whether navigating city streets or handling demanding logistics, the eSuperJolly combines endurance and efficiency to keep your business moving.

Best-in-class volume-to-length ratio

Compact in size, big on volume

At a maximum length of 6,36 meters, the eSuperJolly redefines space efficiency with up to 17 m³ of cargo volume – a benchmark in its category.
This unique combination of compact dimensions and high volume capacity makes it ideal for urban logistics, where manoeuvrability, ease of parking, and access to restricted areas are essential.

Excellent volume for big loads

Designed to meet the demands of modern business, the eSuperJolly combines **intelligent design with exceptional cargo capabilities**.
Its optimized shape with vertical sidewalls maximizes usable space, making it one of the most efficient vehicles in its class.
The capacious cargo area accommodates up to five Euro-pallets. Wide-opening rear and side doors – including 270° rear doors – and roof-height rear doors make loading and unloading effortless – even in tight city or warehouse environments.

Whether you're navigating city streets or managing high-volume deliveries,
the eSuperJolly delivers the perfect balance of compactness, capacity, and convenience.

Charge your eSUPERJOLLY anytime, anywhere, effortlessly

Fast charging

Whether at home on a standard outlet, connected to a dedicated wallbox, or using a public charging station, powering up is simple. LED indicators on the side plug provide a clear, intuitive view of charging progress.
Need a quick boost? With 150 kW fast charging you can add up to 100 km of range in just 15 minutes.

Charging made easy

Start with **IVECO eCharge Packs**, the turnkey solution that combines private and public charging in one offer. Power your eSuperJolly at home or in the depot with premium partners carrying the exclusive quality label "**Recommended by IVECO**", including a 22 kW AC Wallbox made in Europe and fully tested for interoperability, plus DC fast chargers for demanding operations.
Enjoy peace of mind with expert installation and multi-year assistance coordinated by the IVECO Customer Uptime Center, and access 1.000.000+ public points and 10.000+ ultra-fast stations using the IVECO eCharge Card, all managed through IVECO ON and the Easy App. Availability of products and services may vary by country. Please check with your local IVECO dealer.

Your safe place in the urban jungle

With Level 2 Autonomous Driving, your eSuperJolly utilizes its sensors, radar, and camera to continuously monitor the road and surrounding traffic to assist with key driving functions. By helping you maintain safe distances, adapt to changing conditions, and reduce fatigue in demanding situations, it brings you a smoother, safer, and more confident driving experience – so you can focus on enjoying the journey.

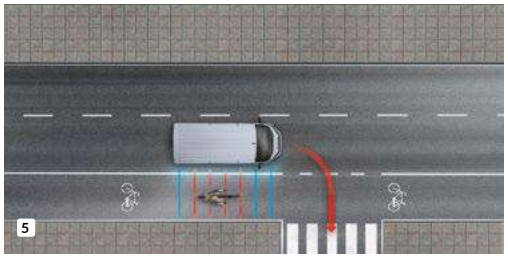

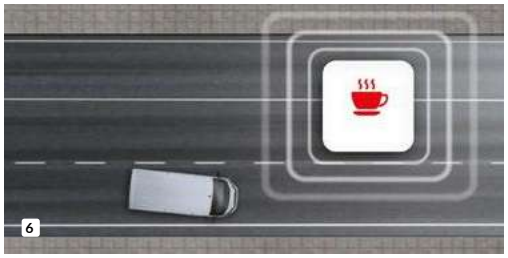

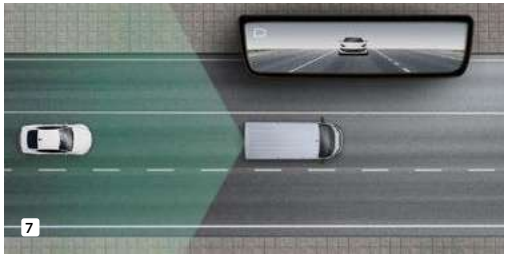

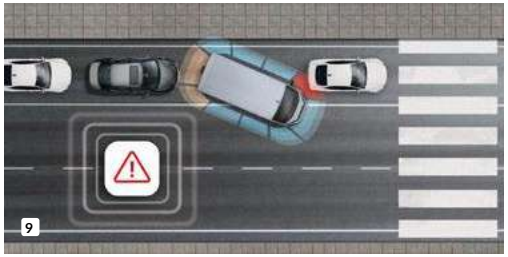

1 Adaptive Cruise Control Stop&Go
Easily activated via intuitive steering wheel controls, Adaptive Cruise Control Stop&Go automatically sets and adjusts vehicle speed to maintain a safe distance from the vehicle ahead. In case the vehicle ahead stops, it brings your vehicle to a complete stop resuming automatically when traffic begins to move.

2 Traffic Jam Assist
Helps you automatically follow the traffic flow, accelerating and braking as needed, and steering to ensure you stay in your lane.

3 Lane Centering
Helps prevent unintentional lane departure using a forward-facing camera mounted on the windscreen. When activated and operational, the system monitors lane markings. If no turn signal is detected, it applies gentle steering corrections to keep the vehicle within lane boundaries or away from the road edge. The system provides tactile feedback through steering wheel torque, accompanied by visual and audible alerts on the instrument cluster. An optional Advanced Lane Centering function keeps the vehicle centred in the lane.

4 Intelligent Speed Assist
Helps prevent speed violations by automatically setting the speed limiter based on information from Traffic Sign Recognition. Using the forward-facing camera, the system detects speed limit signs and adjusts the limiter accordingly.

5 Blind Spot Information System
Blind Spot Information System allows you to recognize side obstacles inside the blind side area opposite the driver's position, by using a set of camera and radars. The system alerts you with a visual warning on cluster and on mirrors through a triangle sign of alert. For a full control of both sides of your vehicle, you can choose the optional Blind Spot Assist which alerts in case of approaching vehicles or overtaking.

6 Advanced Driver Distraction Warning
Enhances road safety by detecting signs of driver distraction, drowsiness or mobile phone use. A discreet camera on the driver-side pillar continuously monitors attentiveness. If fatigue or inattention is detected, the system triggers visual and acoustic alerts, prompting the driver to rest and refocus. Designed in line with the latest GSR-C regulations, it helps prevent accidents while protecting privacy. The system does not record or store facial images, ensuring full compliance with data protection standards.

7 Digital Rearview Mirror
Improves visibility for safety and easy drive. Equipped with a central 8,9" high-resolution LCD display, the system offers a wide, unobstructed, and ultra-clear view of the area behind the vehicle. The view is enabled by a wide-angle HD camera integrated into the center of the upper third stop lamp.

8 Rear Parking Camera
High quality image on the radio display (both 7" and 10" touchscreens), in compliance with GSR regulation. The camera features dynamic grid lines that move in sync with the steering wheel, clearly showing the projected vehicle path to support precise and safe parking maneuvers.

9 360° Parking Sensors
Alerts the driver with acoustic and visual warnings when approaching obstacles or navigating tight spaces. The system uses 14 or 16 sensors (depending on vehicle length) positioned around the vehicle–on the front and rear bumpers and side moldings. A visual representation on the cluster displays the vehicle with three surrounding proximity zones, indicating the distance from nearby objects. At the same time, acoustic alerts increase in frequency as the vehicle nears an obstacle, becoming a continuous tone when the distance is less than 30 cm.

IVECO Services Solutions

At IVECO, we deliver Mobility Solutions that best meet your needs. Our goal is to help you reduce Total Cost of Ownership while increasing productivity by focusing on vehicle health and enhancing the driver experience, through an integrated portfolio designed to support your mission.

Uptime

Unexpected stops cost you. IVECO Uptime prevents them. Through continuous monitoring and remote diagnostics delivered by the IVECO Uptime Center and network, we reduce unplanned downtime by up to 24%.

eMobility

Managing an electric fleet requires new expertise. IVECO eMobility brings it all together. Combining smart routing, charging solutions, uptime services and 24/7 monitoring, it keeps operations productive and total cost under control. We already monitor 4,000+ electric vehicles.

Productivity & Efficiency

In transport, profitability depends on daily decisions. IVECO Productivity & Efficiency gives you the insights to make them. With vehicle data visibility and analytics, it helps reduce costs by up to 5% while improving safety, routes and compliance.

Driver Care

Drivers operate under constant pressure. IVECO Driver Care reduces complexity and cognitive load. Through voice interaction, connected navigation and real-time guidance, it keeps drivers focused. Accidents can be reduced up to 5%.

Safety & Security

Managing risk requires visibility and control. IVECO Safety & Security delivers both. With IVECO ON connectivity and continuous monitoring, it enables early detection of unsafe behaviour and reduces accident exposure by up to 25%.

Parts & Accessories

Our extensive offer of high-quality parts and services enables you to customize your vehicle and enhance your life on board.

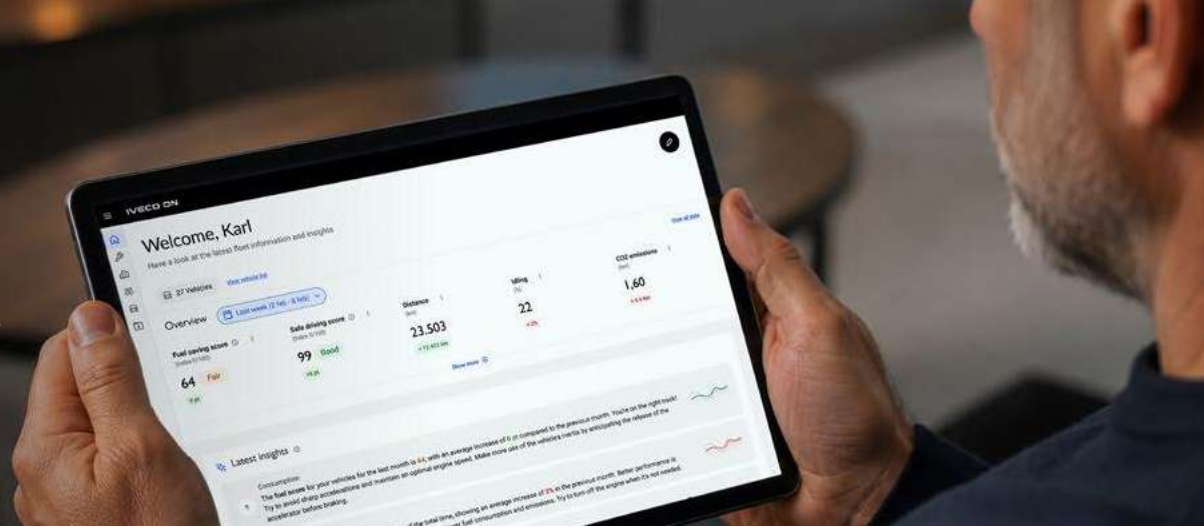

Connectivity

A smart way forward

Choose the connected solution that fits your business – from essential visibility to uptime support and advanced fleet insights.
Add Premium services to tailor to your mission needs.

Standard service bundle

eStart
Essential tools to monitor and control your EV, boosting productivity, efficiency and sustainability.

IVECO ON Access
Fleet visibility through the IVECO ON portal for real-time data and simplified management.

Easy eJolly App
Driver-friendly App for quick access to vehicle status, charging points, and key info.

Uptime Monitoring and Management
Continuous health checks and proactive alerts to prevent downtime.

eRemote Control
Schedule and manage charging and comfort features remotely for cost efficiency and readiness.

eRange Assurance
Accurate range prediction and battery alerts for stress-free planning.

Premium services

Tailor your Mobility Solution with powerful add-ons:

IVECO ON WebAPI
Integrate fleet data into your systems for advanced analytics and automation.

IVECO ON Plus
Location-based services with live vehicle positioning for smarter job planning.

IVECO eCharge Management
Public charging access with IVECO eCharge Card, simplifying admin and cost tracking.

IVECO eCharge
Combines private chargers and public network access in one solution with a single interface and contract.

Driver Assistant
Extends Smart Routing and infotainment features, adding extra years of connected experience.

Maintenance & Repair

You can protect the value and performance of your vehicle and your business productivity with a Maintenance & Repair offer.
Our maintenance and repair contracts plans will maximize your vehicle availability and you can rely on our skilled workforce and guaranteed high-quality IVECO Genuine Parts.

Combine the M&R services to build a contract tailored to your needs

Maintenance
Standard Maintenance is key to keeping the vehicle up and running and is required by law. Maintenance is ideal for customers without their own workshop who want to contain costs.

Wear
All components creating friction will wear over time and will eventually need to be replaced.
Avoid surprises with Wear.

Driveline
Driveline starts with cover of the most valuable components, which are those that transmit movement to the vehicle.

Driveline Plus
Extends Driveline coverage to additional vehicle systems beyond propulsion, including energy systems.

Full Repair
With Full Repair you can enjoy the full peace of mind of knowing anything on your vehicle needing repairs is covered.

Your eSuperJolly comes with 2-year FULL REPAIR cover included in the standard warranty.

Choose and combine to fulfill your requirements

You can choose the best service* levels for your business size and needs, knowing that the associated costs are fixed and predictable.

ESSENTIAL
Maintenance

ADVANCED
Maintenance + Driveline

PREMIUM
Maintenance + Full Repair

FULL REPAIR
Driveline + Extradriveline

* Wear selectable as option.

Parts & Accessories

IVECO offers you a wide range of parts and accessories to increase productivity, enhance versatility, optimize profitability, and keep your vehicle maintenance costs under control, improving your digital life on board and increasing your comfort.

Genuine Parts

HIGH PERFORMANCE

Designed to meet IVECO standards, certified **Genuine Parts** ensure **consistent performance** and **high quality** for your vehicle, with a wide choice of components.

Each part is tested and certified to guarantee IVECO quality. Delivery comes within 24h thanks to the extended IVECO network of Authorized workshop ready to support.

Reman Parts

SUSTAINABLE CHOICE

Through a dedicated and constantly evolving remanufacturing process, **IVECO Reman Parts** are restored by expert technicians to **original performance and specifications**. Each component is inspected, remanufactured and rigorously tested in line with IVECO quality standards.

Reman Parts deliver a sustainable and eco-friendly process to reduce waste and are a cost-effective solution.

Accessories

ENHANCED EXPERIENCE

IVECO Accessories offers an exclusive range of products designed to enhance the aesthetics, comfort, safety, and technological capabilities of your vehicle.
Every accessory enriches and personalizes your driving experience, while boosting connectivity and operational efficiency.

IVECO Accessories are easy to install and fit perfectly on the vehicle, maximize the driving experience and the versatility of the vehicle.

IVECO
